

REMARKS/ARGUMENTS

Amendments to the specification and to the drawings have been made to make minor corrections to the specification and to make corrections to the drawings to conform to the specification.

Fig. 1 has been proposed to be amended, as shown on the replacement sheet, by inserting thereon reference numeral 107 and a leader line extending from reference numeral 107 and indicating the location of the inlet of double cone well pump pressure amplifier 102, (see specification, page 8, lines 5-13). Replacement sheets for the drawing sheets on which Figs. 2-4 appear are enclosed herewith with amendments changing reference numeral 107 to 129 in accordance with page 10, lines 22-29 of the specification. In addition, the replacement sheet for Fig. 4 has been amended to replace membrane unit 114 with separator unit 132 in accordance with page 12, lines 15-19 of the specification.

Please note that the paragraph appearing at page 9, lines 25-28, of the specification, has been deleted in its entirety, but reinserted as a new paragraph at page 10, after line 21, of the specification to improve readability of the specification.

Respectfully submitted,

THIS CORRESPONDENCE IS BEING
SUBMITTED ELECTRONICALLY
THROUGH THE PATENT AND
TRADEMARK OFFICE EFS FILING
SYSTEM ON December 22, 2009.
